

MULTITRON MT-M

MULTITRON MT-M

It is specially designed for quilting panels, the side of the mattress and comforters stuffed with wadding material, foam, latex, viscoelastic, etc.

It allows 180° designs, with winder by bar and compensator.

Lockstitch allows a very versatile quilting, low handling time in changing bobbins and seam adjustment.

Great variety of disc designs and built to order.

MULTITRON MT-M

Optional:

- Fabric winder by bar or roller.
- Transversal cutter.
- Selvedges lateral cutter.
- Side mattress cutter.

Cutter system by blade or ultrasounds. Production controls of the number of panels and time. Independent panel by panel system, that is, the machine cuts while it sews.

Technical data

Dimensions (mm) A	4200 /4800
Dimensions (mm) B	3000 /3600
Dimensions (mm) C	2500 / 3100
Dimensions(mm) Height	2300
Max Stitching area	2700/3200 mm
Bars number	2
Distance between bars	3"
Needles per bar	96 / 120
Distance between neddles	1"
Max. quilting speed	400 rpm
Voltage	380Vac III + N +TT
Electrical power	2 kW
Net weight	4000/4500 kg
